EMPLOYMENT HISTORY

Student Worker, PensionsPartner

2022-present

I work with software development. We develop a pension analysis programme for pension brokers. I am part of migrating the current application into a web application. I work with ASP.NET, C#, JQuery and more.

Mentor, MentorDanmark

2020-2022

I taught mathematics on A-level on an individual basis to high school students. Besides mathematics, I was also approved to teach Chemistry B, Physics B, Information Technology B and Biology C.

Sommer Tour, Bjarne Nielsen

2021

A summer job where I met a lot of different people by driving around in a Ford Range Raptor on all of Zealand. The job was promoting a summer campaign for Bjarne Nielsen, by driving around to beaches or camping spots and hand out free slush ice.

Fresh Produce, SuberBrugesen Finsensvej

2018-2019

I worked as an employee in the fresh produce section, where I mainly worked Saturdays. I had a variety of tasks, including restocking fruits and vegetables, recycling cardboard, cleaning up the yard and helping with checkout of customers.

<i>Driving licence</i>	Category B

ABOUT ME

In my free time I volunteer at Coding Pirates Rødovre, where we teach kids how to code. In my spare time I enjoy coding and working out.

I used to play handball as a goalkeeper. As a youth player (up until 19 years old) I played at the highest elite level in Denmark. After that I played in 3rd division in Denmark.
